

PROFILE

Data-driven professional with 1.5 years of experience in structured reporting, cross-functional documentation, and stakeholder communication, pursuing an M.Eng. in Technology & Innovation Management in Germany. Builds dashboards and automates reporting workflows, using AI tools including Claude and Claude Code daily, having shipped a solo AI-built MVP in under two hours. Combines a computer science foundation with hands-on Excel, SQL, and Tableau experience translating complex data into decision-ready insight.

EXPERIENCE

**UX/UI Designer & Product Support** Jun 2021 – Dec 2022  
**Envisionard Software Services Pvt. Ltd. | Pune, India**

- Presented 8 tracked KPIs through structured reporting across 14 management sessions, translating technical product data for non-technical stakeholders.
- Reduced clarification requests by 45% by authoring structured documentation adopted across 25+ specifications.
- Cut cross-functional coordination overhead by 30% by identifying and resolving recurring process inefficiencies across distributed teams.
- Accelerated delivery cycles by 40% through a systematized 8-family component library adopted across 14 sprints and 6 releases.

**Research Assistant – Urban Mobility & System Design** Mar 2025 – Aug 2025  
**Hochschule Harz | Wernigerode, Germany**

- Consolidated data from 4+ live sources into a unified reporting structure, supporting consistent analysis for 6 institutional stakeholders.
- Delivered a 35-page technical report distilling complex operational data into structured recommendations under a fixed 6-month timeline.
- Tracked 8 project milestones against deadlines, maintaining consistent documentation and reporting standards throughout.

SELECTED PROJECTS

**Consumer Sales Analytics Dashboard**  
*Tableau · SQL · Excel · KPI Reporting · Dashboard Development*

- Engineered interactive Tableau dashboards analyzing \$371M+ in transaction data across 12 KPIs spanning 5 business dimensions for a 6-person leadership team.
- Automated 3 recurring reporting workflows using SQL and Excel, cutting manual reporting time by 60% and improving data consistency for stakeholders.

**TaxHub - AI-Built Knowledge Platform for German Tax Advisory Firms**  
*Claude Code · AI-Assisted Development · Revenue Modeling · Founder Associate Case Study*

- Shipped a working MVP solo in approximately 2 hours using Claude Code, indexing 45+ regulatory data points with citations across 3 modules.
- Modeled unit economics for a €216M revenue opportunity, quantifying a 6–12x LTV/CAC ratio and a 2–4 month payback period.

**Peer-Reviewed Research: Locally Deployed LLMs for Frontline Manufacturing Workers**  
*Systematic Literature Review · PRISMA · LLM Benchmarking · Hochschule Harz, 2026*

- Benchmarked 3 LLM deployment configurations TinyLLaMA 4-bit (410ms), DistilBERT+FAISS (290ms), and GPTQ LLaMA-7B (670ms) — against latency, memory footprint, and hardware fit.
- Screened 80 papers down to 27 qualifying studies (2018–2025) using a Kitchenham & Charters systematic literature review with PRISMA.

**CAVRIX NIS2 Compliance Assessment Engine**  
*Rule-Based Assessment Design · Compliance & Governance · 2026*

- Chose a rule-based evaluation engine over generative AI to guarantee traceable, legally defensible results across every assessment path.
- Deployed a production-ready multi-step assessment covering organizational profiling and security checklisting for German SMEs.

**Amealio: Consumer Research & Competitive Analysis**  
*Market Research · Competitive Analysis · Consumer Behavior · Figma*

- Conducted 12+ user interviews and 2 survey analyses to map consumer behavior across an 8-metric behavioral analysis framework.
- Benchmarked competitor platforms across 5 consumer e-commerce apps, informing journey-mapping and prototyping work in Figma.

**Crafty Culture - Tribal Artisan Marketplace UX**  
*Persona Development · Storytelling · Figma · Independent Project*

- Interviewed 10 prospective users to surface cultural and emotional motivations behind artisan marketplace engagement.
- Developed 4 audience personas and wireframe-to-high-fidelity prototypes, shaping a culturally grounded brand narrative in Figma.
